

Supporting Grassroots Initiatives in Conservation & Sustainable Development in the Tibetan Plateau Region of China

Send a Sheep to School

Village Schools

Plateau Perspectives has been involved in the establishment of local village schools making education accessible for nomad children. They are run by the local communities. Boys and girls are now able to go to school for the first time.

School Yak Herds and Sheep Flocks

The schools need their own flocks of sheep and yak to provide food for children and teachers and an income (from the sale of young animals, fleece and wool) for school maintenance.

In order to be sustainable in the long-term, the local schools must increase the size of their flocks. Recent tax system changes mean they now need to be self-sufficient.

Your gift will enable Plateau Perspectives to provide sheep to increase the flocks to a sustainable size. Animals will be bought locally and given to the schools to add to their existing flocks. This will ensure the long-term sustainability of the schools and enable nomad children to receive an education.
